Save

- Once complete, a message will appear to confirm that the account has been added.

A screenshot of the myPioneer website's "Accounts and Memberships" page. The breadcrumb trail at the top reads "Banking > Accounts > Membership Settings". The page title is "Accounts and Memberships". There are two tabs: "Account Settings" and "Membership Settings", with the latter being active. A green success message box with a red border contains the text "Membership settings updated successfully." Below this, there is a link with a plus icon: "+ Add an Existing Account to myPioneer Online Banking". Further down, there is a section titled "Update membership order preference" and a section titled "Select membership to view details" which contains a dropdown menu with the text "Select a Membership" and a downward arrow.
