**Key Factors affecting you**  
1. Serious delinquency  
FICO® Scores consider the presence of a serious delinquency (very late payment) on a person's credit report as a powerful predictor of future payment risk. Your score was impacted because your credit report shows one or more serious delinquencies.]

**Keep in mind:**  
People with previous late payments are much more likely to pay late in the future, and tend to be viewed as risky to lenders. Most late payments stay on a person's credit report for up to seven years.

The FICO® Score pulled on 08/04/2021 is the FICO® Score 8 based on Experian data, and is the same score that Pioneer uses, along with other information, to manage your account. Click for more credit education
