

## How to Select New Source Account

If you have selected a default account to transfer funds from and wish to change it for a specific transfer, follow the steps below.

- Select the Move Money option at the bottom of your screen and tap the **Start a new transfer** button

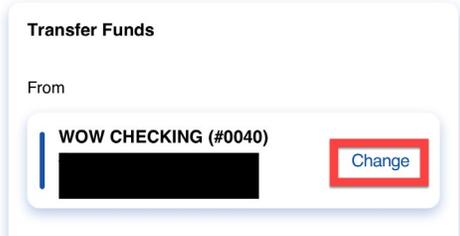

- Your default source account will display at the top of the screen
- Tap the blue X in the top left corner of the screen

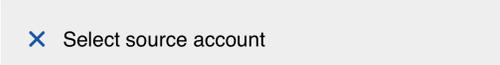

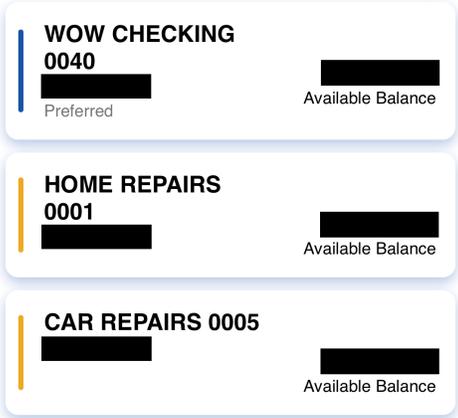

- Tap Change to select a different source account

- You can then select a new source account to transfer funds from

Tap to select an account.

- Select a recipient account and tap **Continue**

X Select recipient(s)
